## Establishing the role of universities in building healthier, prosperous and resilient societies

The **THE University Impact Forum: Health & Well-being 2024** will focus on SDG 3 for good health and well-being, and the role that universities play in researching key diseases and conditions, supporting healthcare professions and looking after the health of students and staff.

Times Higher Education  
**Impact Rankings**

The forum will explore innovations, strategies and practical ways of promoting good health and well-being in a higher education setting, as well as highlight and celebrate the vital role universities play in addressing key global health challenges.

## Agenda themes

University leaders, policymakers and other stakeholders across higher education and healthcare will convene to discuss:

- Trends and challenges in medical and health sciences higher education
- Mental health challenges and solutions in higher education
- Integrating health and well-being into the campus and beyond
- Innovations in women's health

## Closing Panel: Improving advocacy for the healthcare of women

19.09.24 16h-16.55h

4:00 PM

4:00 PM - 4:50 PM GMT +2 (50 Min)

### Closing panel: Improving advocacy for the healthcare of women

📍 Szent-Gyorgyi Lecture Hall

As health inequalities continue to disproportionately affect women, this closing panel will explore what universities can do to help remove barriers that might prevent medical access. The panel will discuss:
