

Kolloquienreihe zu Bioethik

SS 2011

Guest Lecture
Tuesday, March 29, 2011, 5:00 p.m.
Kinderzentrum, Kleiner Hörsaal,
EG, Raum 109

Univ.Prof.Dr. Amnon Carmi

Director of the International Center for Health,
Law and Ethics, and UNESCO Chair in Bioethics,
University of Haifa, Israel

The UNESCO Method of Ethics Education in Medical Schools

As ethical understanding is a major basis for medical professionalism, medical institutions need to build an educational culture which allows sensitization for complex interrelations inside and outside medicine. UNESCO has developed numerous strategies and means to deal with this multi-faceted task within a university setting.

Prof. Carmi is a leading authority in UNESCO's ethics educational programme. He is Secretary-General of IOJT, the International Organization for Judicial Training and was president of the World Association for Medical Law (1991-2010).
