**Further Information:**

**New regulations for the two-stage evaluation regime within Horizon 2020**

The European Commission introduced three new rules for the first stage of the two-stage application procedure:

- 1.) the maximal page count for first-stage proposals under Horizon 2020 „Health“ (Societal Challenge 1) has been increased from 7 to 10 pages
- 2.) The fixed threshold for the evaluation will be replaced by a „dynamic threshold“. Unlike in the last calls for proposals not all applications reaching the threshold will be invited for the second stage (full proposal stage). After evaluation the threshold will be re-defined in a way that the accumulated project budgets will be not higher than threefold the complete budget foreseen for this call. This will result in a success rate of 1:3 (funded projects to full proposals)
- 3.) The evaluation procedure for the first stage now will be complemented by an obligatory „Consensus Meeting“. All evaluators will review the proposals individually and then will need to agree on one common evaluation result together. During the last calls the final result was calculated as the median value of the individual reviews.
