New Call: JRC - Expression of Interest for Collaborative Doctoral Partnerships in the thematic field of Genomics and bioinformatics

The European Joint Research Centre (JRC) is starting a new initiative to implement so-called „Collaborative Doctoral Partnerships“ (CDP) with higher education institutions from Member States and countries associated to Horizon 2020. The aim is to co-develop, co-host and co-supervise doctoral studies together with the JRC in order to raise the excellence by incorporating a science-policy interface dimension into doctoral studies.

CDP does not involve any exchange of money, costs are shared according to the stay at JRC and the participating institution. During the stay at JRC (between one and three years) JRC will cover the costs of the doctoral student including salary, necessary training and work-related travels.

Deadline for applying the Expression of Interests is March 15th, 2017.

After the selection of the institutions, separate collaboration agreements will be signed. These are envisaged to have an initial duration of 5 years.
